

AuditorsDesk has trained over 100+ qualified software users in the last 30 days.

March 17, 2022 - AuditorsDesk is pleased to announce that through our audit software training, we have delivered more than 100 qualified software users in the last 30 days. These users have expertise in using audit management software, hence, they are valuable human resource for audit teams.

“Overall the experience has been great with AuditorsDesk. We were able to customize the software to our preferences and the requirements of our organization. I have gained expertise in audit management software very quickly as it was easy to use. I love the interface of AuditorsDesk, everything is centralised. I can now conduct high quality audits and manage my documents conveniently.” said Ankush Kumar, Chartered Accountant and alumni of AuditorsDesk’s audit software training program.

About AuditorsDesk: Auditors Desk is a cloud-based end-to-end audit platform that helps chartered accountants and audit teams perform efficient audits and reviews. Our audit automation tools manage audit planning, compliance management and risk assessment on cloud based storage with utmost security and encryption.

About AuditorsDesk’s Audit Training Course: Advance audit certification course with audit management software training. Learn from the industry experts and gain practical knowledge. Use audit automation tools to perform mock audits. After course completion earn yourself an ISO certified and globally accepted certification to enhance the credibility of your resume.
